

Date:

Thursday, March 25, 2010

Time:

4:00 p.m. – 4:20 p.m.

Presenter:

“Introducing the Wisconsin Clean Transportation Program”

Francis X. Vogel
Executive Director, Wisconsin Clean Cities - Southeast Area

Fueled by an unprecedented Department of Energy Clean Cities Program grant award, the Wisconsin Clean Transportation Program aims to achieve significant reductions in petroleum use and emissions through the deployment of various alternative-fuel and advanced-technology technologies throughout the state. The Program also features the installation of multiple refueling stations necessary to support these new technologies. Vogel will provide an overview of the Program, which will be the largest effort of its kind in Wisconsin history. Other panelists, to be determined, will describe their participation as a Program partner.
