

Date:

Thursday, March 25, 2010

Time:

2:30 pm – 3:55 pm

Presenters:

Focus on Energy Presentations

Residential Energy Efficiency

Bobbi Fey, Assistant Director

Bill Schutten, Coordinator

Carter Dedolph, Homes Program Manager

Get an overview of Focus on Energy's suite of residential offerings including overviews on programs for new homes, existing homes and energy efficient equipment for the home. Participants will leave with a high level understanding of Focus on Energy and the many partnership and participation opportunities available to both residents and businesses in the State of Wisconsin.

Biographies:

Bobbi Fey

Bobbi Fey has been with the Wisconsin Energy Conservation Corporation since 2001 and is the Assistant Director of Residential Programs for Focus on Energy. In this role, she oversees the Residential Market Channel Programs which include the Residential Appliance, Lighting and Heating and Cooling Programs. She also oversees research and education and outreach activities, assists with contract compliance, and helps to ensure operational efficiency. Ms. Fey holds a B.A. in Environmental Geography.

Bill Schutten

Bill Schutten is a Program Coordinator for Wisconsin's Focus on Energy – Residential Renewable Energy Channel. Bill has worked with the Focus on Energy Renewable Energy Program for three years and currently serves as an information source for customers interested in installing renewable energy systems and contractors who serve these markets. Bill's pre-Focus on Energy days include a biochemistry degree from UW-Madison, two years as a Peace Corps Volunteer in West Africa, and a deep respect for the human eye cultivated during his time as a researcher at the Medical College of Wisconsin. When not approving incentive applications Bill enjoys growing organic veggies in his local community garden and tending to his beehives.
