

Date:

Friday, March 26, 2010

Time:

4:30 p.m. – 4:45 p.m.

Presentation:

“Renewable Energy and Sustainable Practices at NWTC - Biofuels Certificate systems.”

Robert Brylski

Instructor, Northeast Wisconsin Technical College

Northeast Wisconsin Technical College is a leader in offering Renewable Energy and Sustainable Design training opportunities. This presentation will highlight the college's Biofuels Certificate. The Biofuels Certificate at NWTC explores the fundamentals of converting various organic materials into renewable energy. Certificate completers are able to map the process of converting oil crops and animal fat waste into biodiesel. Learners are able to map the process of converting various organic materials into renewable energy and describe the fundamental concepts involved with producing energy from a biomass resource.

Presenter Biography:

Robert Brylski

Robert Brylski is the director of the Wisconsin Small - Scale Biofuels Producer Program and a member of the Green Diesel Wisconsin Foundation. Robert is also an adjunct instructor for Northeast Wisconsin Technical College and Midstate Technical College.
